

Mobile One-Touch Scanning Solution Designed to Reduce Document Prep

WHY FALCON+® TRANSPORTABLE SCANNER?

The only mobile high-volume scanner that can significantly reduce costly prep time.

The Falcon+ Transportable scanner scans documents of nearly any size, thickness, or condition directly from file folders, producing images and usable data in mere seconds, all while significantly reducing the amount of prep needed prior to scan. Feed damaged, fragile, and small documents such as torn papers and receipts directly into the feeder. Documents are handled only once, significantly reducing labor costs while improving chain-of-custody and increasing document security. Additionally, the Falcon+ Transportable frame is designed to easily fold and fit into a transport vehicle to move from one jobsite to the next, and can be set up in as few as thirty minutes.

FEATURES

UNIVERSAL DOCUMENT FEEDER

The Falcon+ feeder reduces the need to prepare documents prior to scanning, which enables documents to be fed as both single pages or in stacks of intermixed weights and sizes.

CERTAINSCAN®

OPEX® CertainScan® allows for customized scanning jobs, identifies page types within a job, and automates many traditional document prep activities - all while integrating with your software.

ENHANCED MULTI-FEED DETECT

Seven strategically placed Ultrasonic Multi-Feed Detectors (MFDs) recognize double feeds, sticky notes and folded corners anywhere on a page and notifies the operator, helping produce the most accurate scanning results in the market.

THICKNESS MEASURING DEVICE (TMD)

The Thickness Measuring Device (TMD) will automatically detect and classify file folders and envelopes as document or transaction separators. Operators can override the TMD feature when scanning thin or fragile documents.

ADVANTAGES

FLEXIBILITY

Designed for easy maneuverability in and out of vehicles including minivans. Falcon Transportable can be set up and running within a half hour of arrival at your customer's site. Falcon Transportable is perfect for scanning environments where documents simply cannot be removed from the premises.

ONE-TOUCH SCANNING

All Falcon+ document scanners combine document prep and image capture into virtually one step! This unique paper handling reduces manual tasks to ensure a safe, fast, and accurate document transformation process.

ENHANCED SORTING CAPABILITIES

The Falcon+ Transportable provides versatile and unique sorting abilities. With expanded bin capacity, the Falcon+ allows for a nearly unlimited batch size. All Falcon+ models are equipped with an additional pass-through bin, ideal for thick and delicate items.

SUPERIOR SECURITY AND DOCUMENT INTEGRITY

In today's world of heightened data security and compliance, One-Touch Scanning ensures efficient, safe, and secure document transformation that can guard against costly data breaches.

SPECIFICATIONS

PHYSICAL DIMENSIONS (HxWxD)

| | |
|----------------------|---|
| Falcon+Transportable | 64.35" x 102" x 32.27" (163.45cm x 259.1cm x 81.97cm) |
|----------------------|---|

ADDITIONAL SPECIFICATIONS

| | |
|---------------------|--|
| Scanning Speed | Up to 120 ppm (letter)/115 ppm (A4) @ 300 dpi |
| In-Line Recognition | OCR, OMR, barcodes, document type ID |
| Document Feeding | High-capacity auto feed, continuous drop feed, packet feed, rescan feed |
| Daily Duty Cycle | Unlimited |
| Media Detection | Multi-feed detection, height, length, skew and envelope detection |
| Bundled Software | CertainScan [®] 64-bit host software, CertainScan [®] Edit [™] , CertainScan [®] Transform [™] , OPEX standard barcode package, Windows 10 64 bit |

DOCUMENT DIMENSIONS

| | |
|--------|-----------------------------|
| Length | 3.5"-25.50" (8.89-64.77 cm) |
| Width | 2.0"-12" (5.08-30.48 cm) |

STANDARD FEATURES

- Automatic page classification
- Automatic de-skew
- 7 Ultrasonic Multi-Feed Detectors
- 600 dpi capture
- Thick document sorting
- 3 programmable sort bins
- Mixed document capture
- 22" touch-screen display
- Wireless keyboard/mouse
- Packet-sensing technology
- Early envelope detect
- Multi-Function ID Assist[™]
- Reference ID
- Top Bin Mirror
- TMD override

OPTIONAL FEATURES

- External digital capture
- MICR/MICR+ (US Only)
- Mobile Work Surface
- 1D and 2D Barcodes
- ScanLink API
- VRS* Technology
- Key Assist[™]
- Bankers Box Cart
- Audit trail printing (front & rear)
- Rear graphics printer for signature and code 39 barcode printing
- CertainScan[®] Edit[™] and CertainScan[®] Transform[™] on external PC
